

Max 4 Regressed Lens

RECESSED

TYPE
PROJECT

Overview

- Recessed 4 inch LED linear regressed lens
- Sleek, slender contemporary design
- Easy access to driver
- T-Grid, slot, drywall

Ordering Format

PART NUMBER: MX4-R

| Size | Lumens Direct | Lumens Indirect | CCT Available | CRI Available |
|-------------------------------------|--|---|---|---|
| 2 = 2 Feet | D3 = 350 LPF | | 27 = 2700 Kelvins | 80 = 80-85 CRI |
| 4 = 4 Feet | D5 = 500 LPF | | 30 = 3000 Kelvins | 90 = 90-95 CRI |
| 6 = 6 Feet | D7 = 750 LPF | | 35 = 3500 Kelvins | |
| 8 = 8 Feet | D10 = 1000 LPF | | 40 = 4000 Kelvins | |
| 10 = 10 Feet | | | TW = Tunable White 2700-5000 Kelvins | |
| 12 = 12 Feet | | | | |
| CL = Custom Length, add in notes | | | | |
| Optics | Mounting | Driver / Voltage | Color | Options |
| OW = Opal White | S = 9/16 Slot Grid T = T-Bar 9/16 and 15/16 SF = Spackle Flange | ND = Non-Dim Universal 120-277VAC ZT = 0-10v Dimming Universal 120-277VAC CC = Custom Control - add in notes | W = Standard White | OS = Occupancy Sensor WH = Whip 6' EMD = Emergency Driver - Battery Backup 120-277VAC MR = MR- 16 Socket LV Add detail in Notes |

NOTES

ORDER NUMBER:

TYPE
PROJECT

Construction & Mounting

OPTICS

Regressed, lay-in acrylic lens formulated for LED light sources. Lift and shift lens removal.

MOUNTING

Our recessed fixtures are made to be mounted in slot grid, T-bar and sheetrock ceilings. See mounting detail. Other ceiling types, please consult the factory, we can accommodate many different applications.

REFLECTOR

Integral powder-coated LED housing with excessive reflectivity for increased lumen output

FINISH

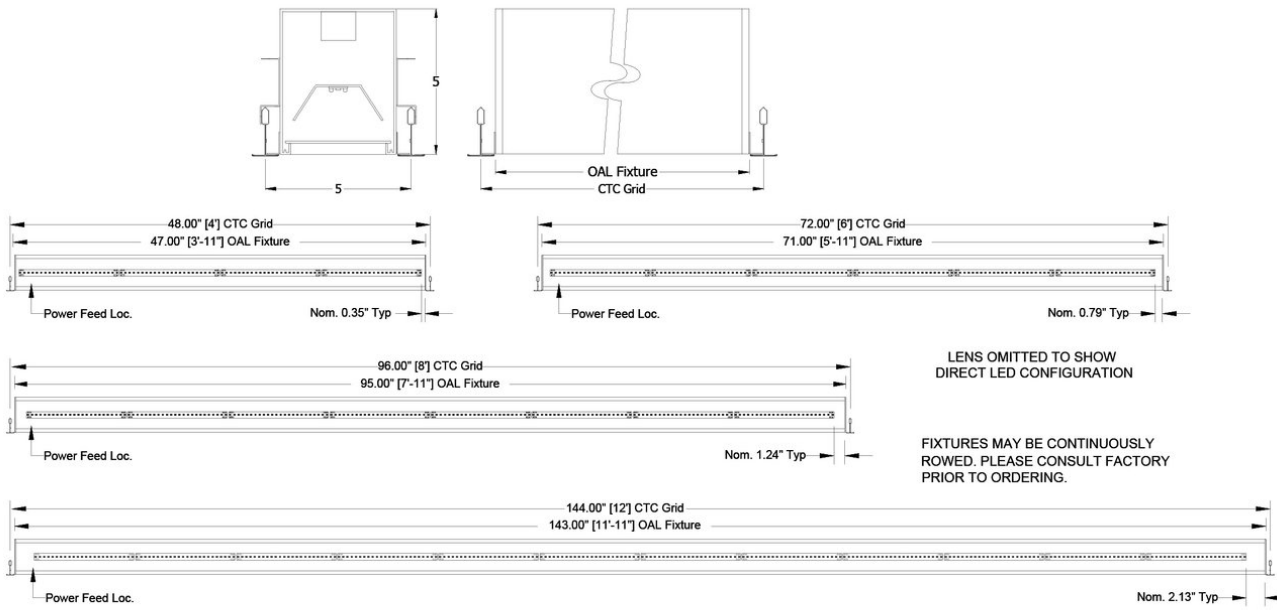

Standard powder-coated colors are white. Troffer style fixtures are not limited to white, consult factory for special applications.

Electrical / Driver

- Our drivers are specifically selected based on fixture application to ensure ultimate reliability and long life. We use only UL recognized brands of LED drivers.
- If required, we can supply premium drivers such as Lutron, Eldoled and others upon request. Advanced control systems compliant drivers such as POE, DALI, DMX, etc. are also available.
- Rated life (90% survivorship) of 50,000 hours at 50° C max. ambient (and 70° C max. case) temperature. At maximum driver load: Efficiency >84%, PF>0.9, THD
- Our LED drivers feature HPF (high power factor), universal voltage 110 - 277 VAC and include 0-10V dimming.
- Emergency drivers are factory installed, long life, high temperature, recyclable Ni-Cad battery pack with test switch and charge indicator. EMR is minimum of 90 minutes operation to meet code.

LED Performance

| LED Output | CCT Color Temp | Watts | Lumens | Lumens per Watt | CCT Multiplier |
|------------|----------------|-----------|----------|-----------------|----------------|
| Low | 3000 | 4.28 WPF | 350 LPF | 81 | 2700 = .95 |
| Medium | 3000 | 6.23 WPF | 500 LPF | 80 | 3000 = 1 |
| High | 3000 | 9.38 WPF | 750 LPF | 80 | 3500 = 1.01 |
| Very High | 3000 | 12.63 WPF | 1000 LPF | 80 | 4000 = 1.03 |

- The table above is a quick reference for "downlight only" (uplight is the same lumen output, but more efficient). When calculating loads for direct and indirect make sure you double LPW. Please refer to photometric report for detailed information.
- Our light engines are precisely designed for optimal operation of LED assemblies.
- Our standard LED's CCT (correlated color temperature) range is 2700K to 4000K. Other CCT values are available upon request.
- We log LED bin codes for each project we supply to ensure color consistency and keep a record of those projects for future reference.
- CRI offered is 80+, and 90+ Note: on 90+ CRI use .85 multiplier
- Tunable white, warm dim and other special LED colors available.
- We design our own printed circuit boards to ensure high luminescence efficiency, low thermal resistance and long-term reliable operation.
- Light engines are easily replaced.
- We use only recognized brand LED's with 3 SDCM (standard deviation color matching) with high color consistency. 2 SDCM available upon request.
- LRP - "LED Reel Program" – LED's for printed circuit boards come on reels' like old 8mm projectors and their sold in lots just like fabric. At Picasso Lighting, we have a program where we make sure all of your reels come from the same lot for each project. This ensures excellent color consistency in large open spaces.
- LED life is rated at 50,000 hours
- Custom Lumens Available

Certifications & Warranties

- Limited five-year (50,000 hours) warranty on all products.
- We can produce I.C. rated fixtures upon request.
- We are IBEW manufactured and assembled
- UL and CUL listed for dry and damp locations.
- Chicago Plenum products are available upon request.
- Made in the U.S.A.
