

# Cobra Kai

## DECORATIVE PENDANTS

TYPE  
PROJECT

### Overview

- /kobre/ mid 17th century: from Portuguese cobra de capello, literally 'snake with hood', based on Latin colubra 'snake'
- Our Cobra Kai was named after our Cobra Pendant series (and you know what else)
- DESIGNER SELECTIONS
- The Cobra has 1 profile size, which is a three inch diameter. Drivers are all remote with different mounting applications, see below.
- Cobra Series has end caps that can be customized by having the same color as the housing or finish of your choice.
- Cobra Series has multiple choices for canopies and colors, just scroll down for your choices.
- Cobra Series is available in almost any CCT available in the market, we've selected the most popular, but don't let that stop you from asking for something different
- Cobra Series is available in direct only, indirect only and direct/indirect. Please note our Cobra is only available with remote drivers because of its small profile. We can also tune in our drivers to specific lumen output if required
- Cobra Series is always available for your projects special customization needs, just contact your local agent
- The Cobra qualifies as "Made in America" and "American Made", and it is also part of our ECO sustainable end of life program.
- For all: ies files, pictures, instructions, rfa files, and warranties...scroll to bottom.
- Cobra Series is available in Pendant only

#### NOTES

**ORDER NUMBER:**

**Construction & Mounting**

**HOUSING**

Housing is aluminum extruded. Drivers are remotely located. Decorative end caps protect the ends and add to hiding light leaks.

**REFLECTOR**

Integral powder-coated LED housing with excessive reflectivity for increased lumen output

**FINISH**

Standard powder-coated colors are white, black and silver. Custom processed wood finishes, aluminum anodized finishes, chrome/gold plating and custom finishes are available as well. We also accept RAL and Pantone numbers for powder-coating color choices

**OPTICS**

Extruded snap-in frosted acrylic lens formulated for LED light sources.

**MOUNTING**

Cable mounting with various size canopies and power feeds. Stem mounting is standard and is available in various lengths. . Canopy mounts to standard J-box and larger sizes may require Picasso re-enforced canopy.

**LABELING**

UL Approved IBEW Union Made

# Cobra Kai

## DECORATIVE PENDANTS

TYPE  
PROJECT

### Standard Finishes

White W      Black B      Silver SVR

### Plated Aluminum - Premium Finishes

Antique Brass PAAB      Polished Chrome PAPC      Polished Gold PAPG

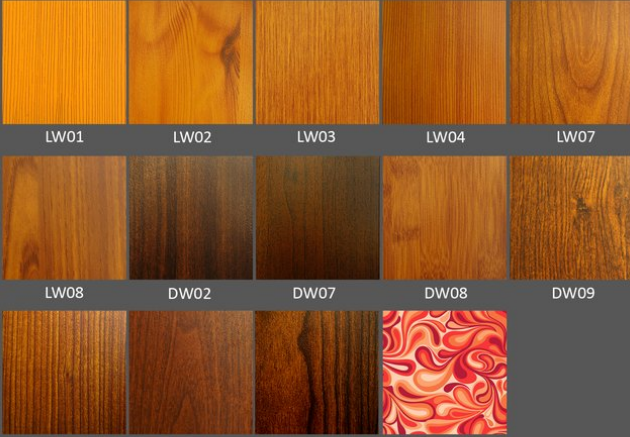

### Anodized Aluminum - Premium Finishes

xxxx-B for Aluminum to be Brushed

Anodized Black AABK      Anodized DK. Bronze AADB      Anodized LT. Bronze AALB      Anodized Champagne AALC      Anodized Clear AACL

### Wood - Premium Finishes

LW01      LW02      LW03      LW04      LW07

LW08      DW02      DW07      DW08      DW09

DW10      DW11      DW12      Consult Factory

**Custom RAL** - Custom finishes go to: [tiger-coatings.com](http://tiger-coatings.com) **Add 8 to Notes**

Standard Finishes - colors are powder coated and do not add to delivery lead time.  
 Anodized Aluminum - can be smooth or brushed, color can vary fixture to fixture and adds 4-5 weeks to lead time. Anodized finish is limited in fixture size.  
 Plated Aluminum - is a mirror finish in chrome and gold and adds 4-5 weeks to lead time.  
 Woods Finishes - so realistic, wood finish can add up to 4-5 weeks to lead time.

**Electrical / Driver**

- Drivers - Our drivers are specifically selected based on fixture application to ensure ultimate reliability and long life. We use only UL recognized brands of LED drivers. Our LED drivers feature HPF (high power factor), universal voltage 110 - 277 VAC and include 0-10V dimming. Please note, 277v has longer distances from power feed to power feed then 120v.
- If required, we can supply premium drivers such as Lutron, Eldoled and others upon request. Advanced control systems compliant drivers such as POE,DALI, DMX, etc. are also available, please consult factory.
- Rated life (90% survivorship) of 50,000 hours at 50° C max. ambient (and 70° C max. case) temperature. At maximum driver load: Efficiency >84%, PF>0.9, THD
- Our LED drivers feature HPF (high power factor), universal voltage 110 - 277 VAC and include 0-10V dimming.
- Remote emergency drivers are an option, long life, high temperature, recyclable Ni-Cad battery pack with test switch and charge indicator. EMR is a minimum of 90 minutes operation to meet code.
- POE - We are working with Molex/Igor POE systems. We can add a POE driver into our fixtures or remote them. Based on the fixture you select, we will notify you (or you can contact the factory) to see if we can install the P-driver or the P-driver needs to be remote. Just add POE1 in the spec and we will advise. Please keep in mind you need to specify a complete POE control system before specifying POE1.

**LED Performance**

LED Output	CCT Color Temp	Watts	Lumens	Lumens per Watt	CCT Multiplier
Low	3000	5.02 WPF (Indirect 2.7WPF)	350 LPF	68 LPW	2700 = .95
Medium	3000	7.4 WPF (Indirect 3.9WPF)	500 LPF	66 LPW	3000=1 / 3500=1.01/4000/1.03

- The table above is a quick reference. When calculating loads make sure you add direct and indirect LPW to get total wattage. Please refer to photometric report for detailed information.
- Our light engines are precisely designed for optimal operation of LED assemblies.
- Our standard LED's CCT (correlated color temperature) range is 2700K to 4000K. Other CCT values are available upon request.
- We log LED bin codes for each project we supply to ensure color consistency and keep a record of those projects for future reference.
- CRI offered is 80+, and 90+ Note: on 90+ CRI use .85 multiplier
- Tunable white, warm dim and other special LED colors available
- Custom Lumens Available
- We design our own printed circuit boards to ensure high luminescence efficiency, low thermal resistance and long-term reliable operation.
- Light engines are easily replaced.
- We use only recognized brand LED's with 3 SDCM (standard deviation color matching) with high color consistency. 2 SDCM available upon request.
- If you require a special LED manufacturer, please contact us. LED chip manufacturers used by Picasso are primarily (but not limited to) Nichia, Cree and Samsung.
- LRP - "LED Reel Program" – LED's for printed circuit boards come on reels' like old 8mm projectors and they're sold in lots just like fabric. At Picasso Lighting, we have a program where we make sure all of your reels come from the same lot for each project. This ensures excellent color consistency in large open spaces.
- LED life is rated at 50,000 hours

**Certifications & Warranties**

- Limited five-year limited warranty on all products that are installed according to the product's specifications. Fixture must be properly installed by qualified licensed electricians, who meet and understand local installation requirements. Proper ambient conditions are to be met. The normal indoor temperatures of 50-90 degrees F, no more than 95% RH and sufficient air flow are required. Fixture should not be modified, and no maintenance or repairs should be performed without the written authorization from Picasso Lighting.
- We manufacture based on approved spec sheets and submittals signed by the customers. Change orders must be in writing and will delay delivery.
- Picasso Lighting reserves the right to repair or replace a defective product with another product with a similar design and the same or better performance, or to refund the distributor for the purchase price. The costs of labor to replace luminaires are not covered.
- Warranty does not cover damage caused by transportation, damage caused by using the fixture in an area it is not UL rated for, damage caused by negligence, lack of maintenance, attempts to repair by unqualified or unauthorized personnel, by using non-original accessories/parts, fixtures installed in systems without power surge protection.
- Picasso Lighting must receive in writing any complaints regarding the defective products, no later than 3 weeks from delivery addressed to: [ttoledo@picassoltg.com](mailto:ttoledo@picassoltg.com). Picasso Lighting will send a field technician to the site to evaluate the said defective product or may require product to be sent back to the factory for repair. The customer is responsible for the costs of disassembly and reassembly. We do accept field repairs and replacement labor from licensed electrical contractors but not without a written agreement signed by Picasso Lighting official. Failure to adhere to all warranty and certifications will void any recompense and the warranty.
- IBEW USA Union All fixtures are IBEW manufactured
